ABOUT ME

Experienced T-shaped Software Developer with 9 years of professional expertise in technical management, full-stack development, and DevOps. Demonstrates solid capabilities in Java and Spring frameworks, effectively guiding development teams and deploying technology solutions that bolster business operations. Adept in Agile methodologies, committed to overcoming complex challenges and ensuring successful project completions.

WORK EXPERIENCE

LEAD SOFTWARE ENGINEER | SEP 2019 - JUL 2022

SWIFT, LA HULPE

• Accelerated the development of Transaction Screening
• Lead List Management Screening solutions, ensuring robust security compliance and fostering cross-departmental collaboration for enhanced solution delivery.
• Spearheaded the full DevOps lifecycle for software releases, achieving an 80% efficiency boost, managing Dockerization on Openshift platform, and orchestrating and migration to Spring5 and Spring Boot2.

SOFTWARE ENGINEER | NOV 2015 - NOV 2018

AGAP2, BRUSSELS

• Started projects like the Extract and Casper projects at the National Bank of Belgium, focusing on data migration, report construction, and frontend-backend integration.

• Played a key role in several projects at DeltaLloyd Life and Bank Degroof Petercam, focusing on SOA improvements and payment automation, creating the first project with Talend for the entire department.

SOFTWARE ENGINEER | NOV 2013 - NOV 2015

NOVABASE, LISBON

• Migration and advanced payment solutions for SIBS
• Developed cloud solution prototypes to align with Vodafone's cloud requirements.
• Vodafone front-end development for Product and Catalog Project

FOUNDER | AUG 2012 - NOV 2013

SMALL RETAIL BUSINESS, LISBON

• Established a retail company, directing all facets including marketing strategy, financial management, and event planning.
